

Lac Sinclair Association Newsletter

Fall 2021

In this edition:

- **President's message**
- **Water Quality**
- **Thanks to Firefighters**
- **Fishing Tournament**
- **Regatta**
- **And more!**

Message from the President

I hope you all had a great summer and were able to take advantage of the weather and the various activities offered by your association; we promise you more ...

Our Annual General Meeting was held on September 11th and we saw a significant drop in attendance; only 19 members attended this AGM including committee members. As a result, the Association decided to hold this assembly at the very beginning of summer as before, and when we are all excited about the summer season. You will find the minutes of the AGM as well as the 2020 financial statements at the end of this newsletter.

I would like to take this opportunity to thank everyone who paid for their membership; we have once again exceeded the number of members. By the end of November, we had reached 158 members; you can still join for 2021 if you haven't already done so. **MANY THANKS** everyone for your continued support.

Please mark in your **2022** calendar the following dates:

NEW and BACK AGAIN THIS YEAR:

- *Winter activities on the lake: **winter 2022*** - we plan to have trails around the lake for snowshoeing, cross-country skiing and / or walking and, weather permitting, skating
- *The Esprit du lac Regatta: **August 13*** or August 20 (in case of rain on August 13)
- *The Fishing Tournament: Sunday **July 31***
- *The 2022 Annual General Meeting: Saturday, **June 25*** at the Ste-Sophie d'Aldfield Community Center at 10:00 a.m.

(cont'd from page 1)

Look for more information closer to the time in subsequent e-mails, on our website www.lacsinclair.ca, our Facebook page <https://www.facebook.com/lacsinclairquebec>, and on our notice board at the corner of Chemin Cléo Fournier and Chemin Bernier / Chemin du Lac Sinclair.

Stay tuned for the following articles in the Spring 2022 newsletter:

- Watch out for fishermen
- Cladoceran - new invasive aquatic plant
- TAAComobile - mobile market at the Community Center

Your Executive Committee members:

Jocelyne Alain – President, jocelyne2855@gmail.com, cottage 819-456-3589

Our precious volunteers :

Yvon Prigent and Louise Bellefeuille-Prigent – Membership Secretary

Roger and Joanne Smith – First Aid Resource

Roger Smith – Financial Report Reviewer

Chantal Vaillancourt Scott – Water Level Measurement

Kevin Scott – Water Clarity Measurement

We wish to thank once again the Municipality of La Pêche for the provision of its annual grant to our Association, and for activity grants; this financial support is very much appreciated. We would also like to thank the Ste Sophie d'Aldfield Community Center for their generous contribution with the Boat Washing Station and the storage of the equipment.

I wish you all a very nice, safe and healthy winter and look forward to seeing you at the lake next summer.

Jocelyne Alain

Water Quality

Water testing

Water testing for e-coli levels was completed on June 18th and August 16th this year at 30 standardized sites around the entire lake. The results of all tests are presented in the graph on this page measured in e-coli particles per 100 ml of water. Quebec guideline for safe swimming water is 200 particles per 100 ml while Ontario's is 100 particles per 100 ml. You will see that the results at all sites tested in both spring and fall were well below these guidelines. E-coli levels continue to be very low in the lake year over year which is very encouraging.

Again this year the lake association participated in a Provincial water testing program that aims to benchmark water quality and clarity across as many lakes in Quebec as possible. Samples were collected in mid-June, July and August and remitted to the province for testing with a focus on chlorophyll, phosphate and carbon levels which are the key drivers of water clarity and algae growth. Over the five years that we've been participating in this program, the measurement of these three substances has been very consistent

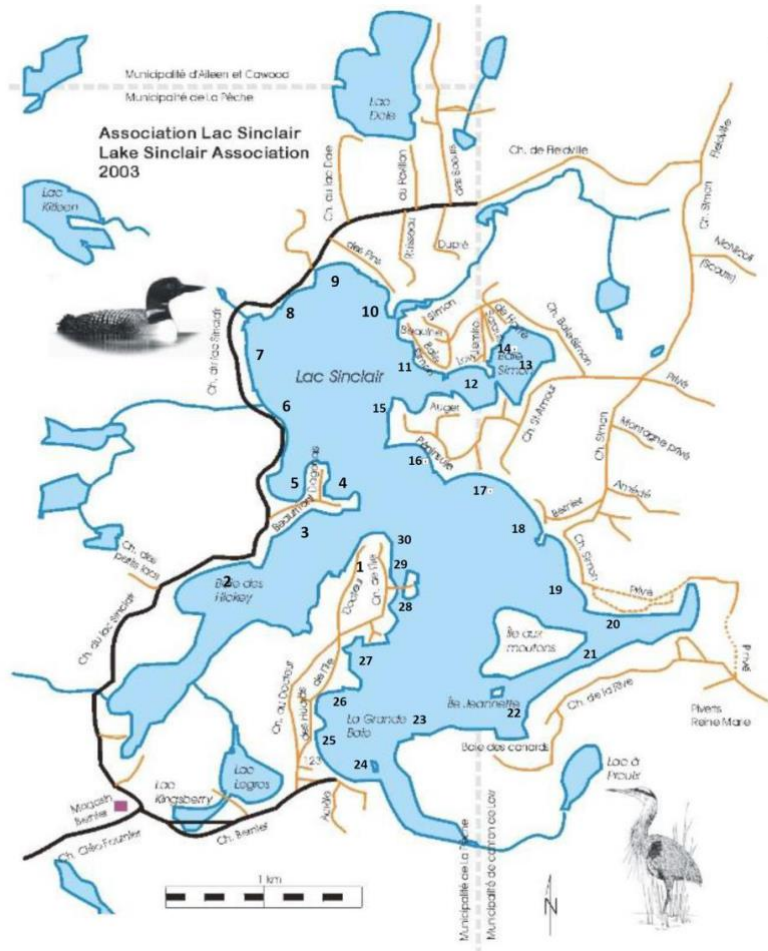

however there was a noticeable increase in carbon levels this past year. We are awaiting feedback from our Provincial contact as to the significance (if any) of this increase.

*Drinking Water: never drink lake water

* Eau potable: ne buvez jamais l'eau du lac

Safety buoys

We have now replaced 20 buoys on the lake over the last two years. With recent low water levels, there were four new spots that warranted a buoy therefore bringing the total number of buoys managed by the lake association to 24. We will be purchasing six new buoys over the winter so that, this coming spring, all 24 will be no more than three years old thereby retaining their bright, yellow colour. Please be sure to remain at least 30 meters away from all buoys when boating on the lake. The buoys are anchored down with cinder blocks however a large wake from a boat driving too close can easily dislodge the buoy and move it away from the rock it was intended to warn boaters about – resulting in a dangerous situation. There were a couple of incidents this summer where boaters tied their boats to the buoy anchor lines resulting in buoys being dislodged. Please do not touch the buoys and anchor lines at any time.

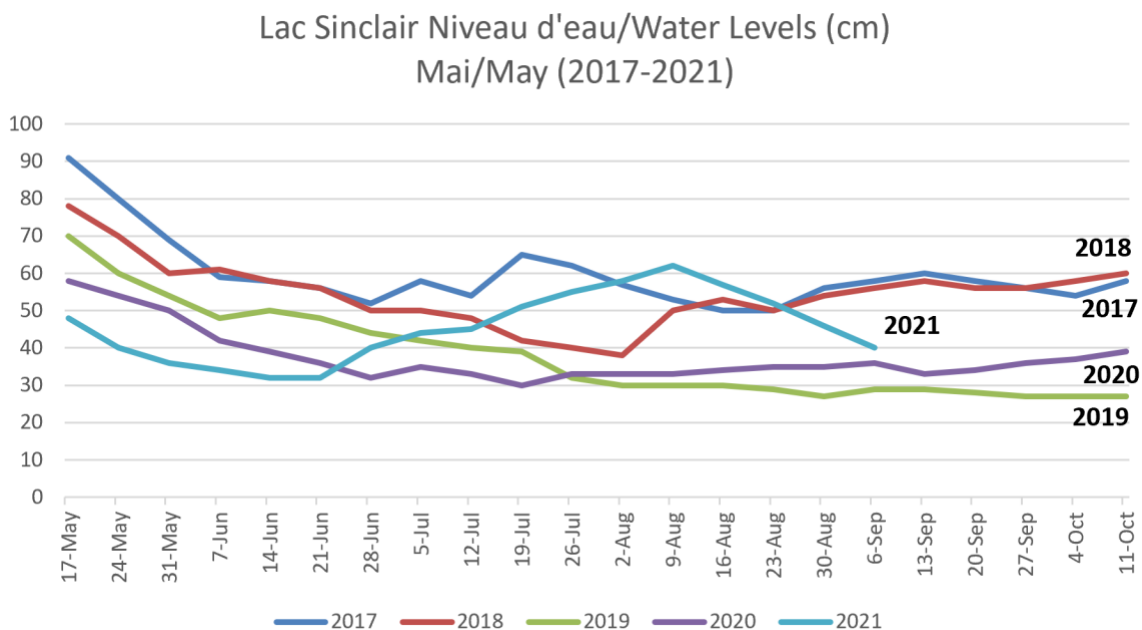

Water levels

The graph below compares weekly water level measurements taken from the same spot on the lake over the past five years. Several factors impact water levels including winter melt, amount of rainfall and heat intensity. A big thank you to Kevin Scott and Chantal Vaillancourt who manage this process on behalf of the lake association.

Ete/Summer 2021

Boat washing

The boat washing station was available for free the entire boating season next door to the Community Centre in East Aldfield across the street from the Ptit magasin général. It is very important that all boats, trailers and other vessels that have been exposed to other bodies of water (other than Lake Sinclair) are thoroughly washed prior to being put back into the lake. Foreign invasive species are very prevalent in surrounding lakes and rivers and are easily transported to other bodies of water causing irreparable harm in many cases. There is no charge for using the boat wash and it only takes a few minutes to do. Be sure to pass this info on to your guests who may bring a boat or other water vessel with them when visiting.

Soap products, pesticide and fertilizer use

It is recommended to use biodegradable products that degrade in less than 30 days such as La Parisienne, Biovert and Attitude. These products are phosphate free. Phosphorus containing products increase the level of chlorophyll in the lake which in turn leads to increased algae and plant growth and reduced oxygen levels for fish. For those property owners with lawns close to the lake shore, please refrain from using pesticides and/or fertilizer as these products contain phosphorous and nitrates that are detrimental to lake water quality. It is recommended to retain a two-meter buffer of natural plant life between your lawn and lake shore

Volunteer Firefighters – Thank You!

Firefighting and emergency medical services are things that we all hope to not have to use however it is important to understand the extent of such services that are available to all citizens in the region largely due to a wonderful group of volunteers.

The La Pêche fire department is comprised of the following:

- Four fire stations located in Masham, Wakefield, Lac des Loups and East Aldfield. At a minimum, each station has a 1800 US Gal pumper and a 3500 US Gal tanker.
- One Zodiac inflatable boat located in Wakefield
- One accident crash truck that has the jaws of life and all equipment required to extract a person from a vehicle
- One 6x6 ATV for off road rescue.
- The service is comprised of 50 men and women but only 2 are full time employees - the fire director and an admin coordinator. Out of the 50 members, approximately 30 are qualified as first responders and others have additional specialized training including water rescue and accident extraction
- The service logs 250 to 300 fire calls per year and 150 to 200 first responder calls. Most of the calls occur in the Masham/Wakefield area.
- One station is almost never deployed to a confirmed call without the support of a sister station and as the situation escalates the fire director will coordinate manpower and equipment.

Fishing Tournament Report

Many thanks to all those who participated and especially those who *pre-registered* by email or telephone. This made reception at the Lafrance dock much easier! There was a good turnout despite the threatening weather. Luck was with us as the rain stopped just as the tournament was starting. Most importantly, the fish were biting! Several nice smallmouth bass and pike were taken. All trophies were awarded for adult pike and smallmouth bass. Children won trophies for smallmouth and rock bass and one trophy was awarded in our new *child pike* category. Congratulations to all the winners! Sadly, perch seem to be disappearing from the lake and none was reported. After the trophies were given, participants waited in their boats during the draws to win some of the numerous gifts from our very generous sponsors. Here is some more information on this year's successful event. We look forward to seeing as many of you again in 2022. The more the merrier!

The numbers – there were 17 boats with 69 participants – 56 adults and 13 children (members, families and guests). This year, a number of former child participants fished as adults and will be strong competitors in the future!

Trophy winners

Adult pike – 1st Claude Pinault (3.81 kg) – 2nd Cédric Lapointe (1.81 kg) – 3rd Anne St-Amour (1.66 kg) (NB our trophy supplier ran out of pike figurines and so 2nd and 3rd place trophies had a bass instead of a pike on the base 😊)

Adult smallmouth bass – 1st Kayla McLennan (1.65 kg) – 2nd Marc-André Roussel (1.55 kg) – 3rd Sue Hunter (1.51 kg)

Child pike – 1st Ethan Lylyk (1.12kg)

Child smallmouth bass – 1st Jaymes Roussel (1.49 kg) – 2nd Amélie Cadieux (1.14kg) – 3rd William Lecompte (.83kg)

Child rock bass – 1st Mathis Lecompte (.22 kg) – 2nd William Lecompte (.21 kg) – 3rd Olivia Simboli (.20kg)

Largest fish was awarded to Claude Pinault and his prize was a cooler

Door prize winner was awarded to Karl Lecompte and his prize was a fishing rod

Our dear sponsors – Quincaillerie ACE (Masham), Beausoleil Home Hardware (Wakefield), Gauvreau BMR (Masham), Laurentian Marina (Ottawa), Ti-Ray (Masham), Services DR & Fils (Lac Sinclair), Le Ptit magasin général (East Aldfield). Please remember to support them.

Special thanks

- To the Lafrance family for again allowing us to use their waterfront and for helping to set up the presentation area along with a marquee in case of rain.
- To the volunteers who worked very hard in organizing the sponsorship (Paul Gauthier et Diane Berlinguette), the registrations (Gerry Lylyk et Jocelyne Alain), the weighing (Colin Chesterman), the photograph (David Hallman), the purchase of trophies (Brian Le Conte) and the presentation of the trophies and prizes (all).
- To our trophies supplier – Globe Awards and Promotions, (Bronson Ave, Ottawa) – they give us a fair price and do careful work.

Lac Sinclair Association L'Esprit du Lac Regatta 2021

Saturday, August 14, 2021 – A very good turnout on the beach at Chemin des Pins! Despite the Regatta date changing three times (from July to August 7 and once again a Rain Date) everyone enjoyed an afternoon of fun and games for the 4th annual L'Esprit du Lac Regatta. A very good turnout due to sunny weather and community spirit. New for 2021, the organizing committee launched digital communications and sign-up through our Facebook page and group using a Google form to track interest. By August 14, 11 signed up and 15 were interested in participating. By 1pm we had ~25 participants in the games and ~10 spectators. Shout out to the fabulous kids and young adults who joined without hesitation – helping to balance each of the Red, Green, Blue and Yellow teams.

The Regatta featured only team games on the beach and in the water, including water balloon toss, wet T-shirt Relay, Kayak races, Lake Ball Toss and the very popular **Sink the Swiss Navy Canoe**. Hand-crafted and locally made medals were given to the winners including the team with the most “Esprit du Lac Sinclair”!

Click on this link to view some photographs:
<https://photos.app.goo.gl/bXdzscsA2YJtaYqq6>

Many thanks to all who participated! Special thanks to the Smith family for allowing use of their beautiful water front and to all the volunteers and the organizing committee.

Looking forward to sunny weather and strong L'Esprit du Lac in 2022!

Megan Farrell on behalf of the L'Esprit du Lac Regatta Organizing Committee

Lac Sinclair Annual General Meeting Saturday, September 11, 2021, at 10 am Ste-Sophie d'Aldfield Community Centre

1. Opening of the meeting and establishment of quorum.

19 members were present including the following executive members (Jocelyne Alain, David Hallman, Colin Chesterman, Luc Vézina and Chantal Vaillancourt. Absent: Mark Farrell and Megan Farrell. The President announced that no voting will take place as we need 25 members therefore no quorum can be established.

2. Introduction of the Executive Committee

The President introduced all committee members, as well as our volunteers: Yvon Prigent and Louise Bellefeuille.

3. Adoption of the Agenda

Jocelyne is adding Luc Thivierge, municipal Counsellor of Low to the Agenda at his request.

The agenda cannot be adopted without a quorum, however there were no objections.

4. Adoption of the September 12, 2020, AGM Minutes

There were no objections regarding the 2020 AGM minutes.

5. Adoption of the 2020 Financial Report

Colin Chesterman presented the 2020 Financial Statements which were verified by Roger Smith, as well as the budget for 2021. In 2020 the Association finished with approximately \$4,000 and for 2021 is projected at \$6,521.69. The main expenses

were the buoys, water testing as well as the regatta. The municipality donated much more than the recorded \$800; It was recorded in last year's statement as the funds were received in December. Jocelyne explained how the Association receives a global grant from the Municipality of La Pêche which is the equivalent of \$4 per resident which gives the Association approximately \$1,100. These funds are used for the water testing and ongoing annual operations. Also, grants are received for activities at the request of the President. Jocelyne also requested grants from the Provincial Government/National Assembly to replace the buoys – in 2019 the Association received \$500, and in 2020 - \$300. A member questioned the \$0 amount for Insurance. Jocelyne explained that the Association is insured by BFL Canada which insures not for profit organizations. On the 2020 report the amount reported was \$486.26, it currently is showing as \$0 for 2021, but the payment is due in November and at that time the 2021 statement will be updated.

There were no objections regarding the financial statements.

6. Luc Thivierge, Councillor from the Municipality of Low

M. Thivierge thanked all members who voted for him in the last election. M. Thivierge summarized some of the tasks completed during his tenure:

- In the last 4 years, over \$200,000 were invested in road work for the roads of St. Amour and Simon. This including a streetlight that was installed at the intersection of ch Simon and ch Fieldville.
- A guardrail was installed at the corner of Fieldville and Cawood.
- The Municipality of Low was the first to initiate a First Responders program which was spearheaded by Luc Thivierge. There are now 17 first responders for the Municipality of Low. As well, the Municipality purchased a vehicle for this program.
- M. Thivierge created an Emergency Plan with the Chief of the Fire Department.
- A new grader has been purchased as well as a new backhoe which will have a sweeper to remove the sand from the winter plows.
- A new sign indicating the risk of outdoor fires has been installed on chemin du Lac Sinclair.

M. Thivierge presented his platform for the upcoming elections, as follows:

- Ensure that the roads are cleaned and trimmed for safer driving
- Curb the wasteful spending by the municipal government
- Working on getting a cell tower.
- Meeting with Hydro Quebec to discuss the high level of power outages.
- Working to institute a law for the verification of septic systems.
- Working on getting a new fire station.
- Also working on getting a daycare for the area.
- -Working to keep Bilingualism.

M. Thivierge finished off by asking all members to go vote on November 7th.

7. 2021 President's Report

I am now in my fourth year as president, and I continue to enjoy it very much although I found this year particularly difficult:

- We held 2 executive committee meetings: one on October 24, 2020, and one on May 15, 2021.
- We published 2 newsletters: Fall 2020 newsletter published mid-December 2020 and the Spring 2021 newsletter published mid-June 2021.
- As you were informed in our previous Spring Newsletter, Île aux moutons was vandalized. I filed a police report and at the end of June, M. Desbiens, from the Ministère de l'énergie et des ressources naturelles (MERN) came to visit the island and he brought and installed new Pick up your garbage signs. Less than a week after that, the signs had all been removed and damaged. My spouse and I went back at least twice to reinstall them...then I gave up for a while until suddenly, the signs had been reinstalled by a very nice person...The No Fire sign, which is damaged, will be reinstalled at the beginning of next summer.
- We did benefit from a patrol by the Sureté du Québec last July 1st...Unfortunately, the MRC des Collines was unable to make to our lake this year. Both have confirmed that we are on their list for next summer but cannot promise that they will be able to come.
- Then there was the situation of the Winnebago on the beach, the damage to the beach by backhoe and the fence...Finally, the Municipality of La Pêche came, the Winnebago stays because it is at 50 feet from the shore, and now the situation has somewhat calmed down...We can go and swim without being harassed...
- The next lake associations' meeting is scheduled for October 2nd for which I have invited ~~the~~ Mayor Guillaume Lamoureux since all 10 lake associations are located in the Municipality of La Pêche. Also, Pamela Ross, Counsellor for Ward 5 wishes to attend this meeting. The purpose of these annual meetings, now in our 3rd year, is to

share information, discuss common issues and come up with solutions. These meetings are very beneficial to all of us as we can learn from one another and bring information back to our respective associations.

- To finish on a good note, we had a great fishing tournament last August 1 with approximately 69 people participating including 11 children from the ages of 4 to 12. Not as many children this year as many of them had turned 13 and therefore no longer qualified as children for this tournament. Many thanks to Paul Gauthier and his wife Diane, Brian Le Conte, Colin Chesterman, David Hallman and Gerry Lylyk for helping me organize this activity.
- We also had a very successful Regatta last August 14 with approximately 25 participants and quite a few spectators. Thanks to Megan Farrell and her team for working so hard to put this together.

Again, please do not forget that all of our work is entirely done on a voluntary basis; I want to thank all of the volunteers very much for their continued work.

8. Active Association Files

Activities: Refer to the President's notes above regarding the Fishing Tournament and the Regatta. It was suggested that a date be set early for the Regatta, so people can reserve the weekend well in advance. Another suggestion was to schedule the Regatta on the same weekend as the Fishing Tournament, to potentially increase the participation rate.

Water Testing and Buoys (Notes from Mark Farrell):

- We replaced the last 6 buoys this year as well as most of the chains and connectors. We also purchased winter floats for all the chains.
- Definitely want to remind boaters to stay away from the buoys as well as fishers. There was an instance this summer of a fishing boat tying up to a buoy and pulling it off the rock it was sitting on.
- We added the Slow No Wake buoy to Bay Simon entrance – 99% efficient
- We participated in the RSVL water testing program offered by the Ministry of Quebec, Environment and the fight against climate change (Ministère du Québec, Environnement et lutte contre les changements climatiques). Samples were taken mid June, July and August to test for metal levels as well as phosphorous, Chlorophyll and Dissolved Organic Carbon.
- We tested for E. coli twice at 30 stations. Levels were very much in line with previous tests and confirm that E. coli levels are well within safe swimming guidelines.
- Water levels are mid range over the last 5 years. The Scotts (Chantal and Kevin) performed weekly readings - The Secchi readings were consistent with previous years and the water clarity is very good.

Website/Facebook

Luc Vézina noted that there are no new updates regarding the website and Facebook, other than the increased activity on the Lac Sinclair Group on Facebook. There are now 322 members on the Lac Sinclair Group.
