

Lac Sinclair Association Newsletter

Fall 2019

In this edition:

- President's message
- Water testing
- Logging update
- Cell towers
- Mining
- Cottage rentals
- Fishing tournament
- And more!

Message from the President

Hoping that everyone enjoyed a great summer!!!

30 members attended the Annual General Meeting and Guillaume Lamoureux, Mayor of the Municipality of La Pêche was also present as guest. I take the opportunity with this newsletter to inform you that from now on, the Fall newsletter will include the minutes of the previous AGM along with the Financial Statements of the last completed year. The members approved the following members of the Executive Committee:

- Jocelyne Alain – President, jocelyne2855@gmail.com, cottage 819-456-3589
- David Hallman – Past President, david_k_hallman@hotmail.com, home 613 747-7494 cottage 819 456-4474
- Mark Farrell – Vice President and Director, Environment, mfarrell@inspiredevelopments.ca, cottage 819-456-1041
- Colin Chesterman – Treasurer, Chestecc@sympatico.ca, cottage 819 456-2939
- Megan Farrell – Director, Water Testing, Social & Special Events, megan_gallagherfarrell@yahoo.ca
- Maurice Legros - Director, Advertising – *resigned shortly thereafter*
- Luc Vezina – Director, Web Site, luc.vezina@gmail.com
- (Vacant) – Secretary, (Vacant) - Director, Special projects

I would like to mention that all of our work is entirely done on a voluntary basis; I would like to thank all of our volunteers very much for their ongoing contributions:

- The members of the executive committee
- Yvon Prigent and Louise Bellefeuille-Prigent – Membership Secretary
- Brian Le Conte – Fishing Tournament Organizer
- Roger and Joanne Smith – First Aid Resource
- Roger Smith – Financial Report Reviewer
- Chantal Vaillancourt Scott – Water Level Measurement
- Kevin Scott – Water Clarity Measurement

(cont'd from page 1)

Please mark Saturday **11 July** in your calendars as the date for the 2020 Annual General Meeting to take place at the Ste-Sophie d'Aldfield Community Centre beginning at 10:00 AM. Our only activity for the summer of 2020 will be the Fishing Tournament: Sunday, **2 August**.

Look for more information closer to this time in subsequent e-mails, on our website www.lacsinclair.ca, our Facebook page <https://www.facebook.com/lacsinclairquebec>, and on our notice board at the corner of Chemin Cléo Fournier and Chemin Bernier / Chemin du Lac Sinclair.

We wish to thank once again the Municipality of La Pêche for the provision of its annual grant to our Association, and for an activity grant; this financial support is very much appreciated. We would also like to thank the Ste Sophie d'Aldfield Community Center for their generous contribution with the Boat Wash Station and the storage of the equipment.

I wish you all a very nice winter and we look forward to seeing you at the lake next summer.

Lake water related matters: Water testing, clarity, depth and boat washing.

Water testing

Testing for E. coli levels was done twice this year, June 23rd and August 23rd. Twenty-five samples were taken on each test day from the same designated spots around the lake (see map below for details). The results were very consistent with past testing and confirm that the quality of the lake water is excellent and well below the provincial E. coli limits for swimming conditions (200 E. coli/100ml water). A key determinant of E. coli levels is storm water run-off into the lake. Run-off can be reduced by ensuring that the natural vegetation at the lakeshore is maintained.

Looking to next summer, the executive has decided to add an additional five test spots to our twice annual samples for a total of 30 samples. This is in light of additional cottages on the lake and the need to have complete shoreline coverage.

Water levels

The association has been tracking the lake water levels for the last four years (thanks to the efforts and Kevin and Chantal Scott). Within the summer season the lake level can change by as much as 40 cm. From year to year there have been variations of as much as 30 cm at any given point in time. As you will see from the graph below, 2019 was the lowest on record. This is largely due to the fact that the beaver dam on the NE side of the lake is kept in check by the property owner in order to provide adequate water flow to the fire pump that serves this area of the lake. It is expected that these lower water levels will be more common as a result of this. Another factor was the low amount of rainfall received in the spring and summer.

Water clarity

2019 was the eighth year that the lake association has been measuring water clarity every two weeks during the summer months (May to Oct) as part of a Provincial Government study. There are designated spots in the lake where a Secchi dish device is lowered into the

water on the end of a rope. Once the device is lost from sight, the depth is measured and recorded. The findings over the years have been very consistent which indicate that plant life and chlorophyll levels are remaining relatively constant. A big thank you to Kevin Scott who has managed this process for the association.

Environmentally friendly soaps and detergents

It is highly recommended that all cottagers use soaps, shampoos and dish/laundry detergents that are phosphate free. There are numerous brands now available in most grocery stores at similar pricing to regular soaps and detergents. By using phosphate free products, we can all help to keep our lake water clear and less susceptible to algae blooms. Le P'tit magasin général across from the Community Center carries *La Parisienne* line of products. Other well-known brands to look for include Biovert and Attitude which Le P'tit magasin général is working on obtaining in the future.

Lac Sinclair – Water Levels/Niveau d'eau

Mars/March to Octobre/October

Association Lac Sinclair 2016-2019

Boat washing

The boat washing station next to the Community Center in East Aldfield across the street from the general store was available for use from the May long weekend until Thanksgiving. As awareness of the washing station grows, so does usage. It is estimated that at least 20 boats were washed again this summer season. It is very important that all boats, trailers and other vessels that have been exposed to other bodies of water (other than Lake Sinclair) are thoroughly washed prior to being put back into the lake. Foreign invasive species are very prevalent in surrounding lakes and rivers and are easily transported to other bodies of water causing irreparable harm in many cases. There is no charge for using the boat wash and it only takes a few minutes to do. Be sure to pass this info on to your guests who may bring a boat or other water vessel with them when visiting.

Safety Buoys

The Association will be replacing the second half (10) of the buoys next spring. It is recommended to keep a 30-meter distance from the buoys when boating. Should you ever find one floating free, please pick it up and email the “ lacsinclairinfo@aol.com” mailbox through the association website and we will arrange to pick it up.

The advertisement is split into two main sections. The top section is for 'Gauvreau ski-doo' and features the brand name in a stylized font with a gear icon. Below it are logos for 'ski-doo' and 'can-am'. The address '4 rue Principale est Ste-Cécile de Masham, Qc J0X 2W0' and phone numbers 'Tél.: 819-456-2500' and 'Télec.: 819-456-4538' are listed. The bottom section is for 'BMR' and features the brand name in large, bold letters. Below it is the slogan 'La force... de la rénovation !'. The same address and phone numbers are repeated. A gold seal with 'BMR EXPERT' is visible on the right side, and the word 'QUINCAILLERIE' is written vertically on the right edge.

QUINCAILLERIE

Logging Update

Lauzon Flooring has secured the cutting rights to a large tract of Crown land just West of Lac Sinclair. The area around Les Petits Lacs falls into the cut zone. Several logging roads were cut last fall and have been expanded this fall. There are now 20 loggers working full-time in the area harvesting lumber. The operations will shut down once regular snow fall begins and will resume next spring. It is our understanding that the Lauzon license is valid until the end of 2020. On November 15th, [media outlets reported](#) that Lauzon had stopped logging and would be laying off 164 people. It is unknown if this will impact the operation around Les Petis Lacs.

Cell Towers

The following email was sent to our two municipalities, the local MNA and MP and was published in the Low Down:

“On November 1, we had a major power failure at Lac Sinclair that lasted 50 hours (2 +days). For nearly 12 hours, the phones were not working either which caused a lot of panic for many residents. Personally, I felt excluded from the outside world without electricity but especially without any means of communication: no email, no phone and no cell since cell phones do not work in our beautiful little corner of the country. Mercifully no one suffered a heart attack without the ability to call 911. Therefore, I urge you, Ms. Mayor of the Municipality of Low, M. Mayor of the Municipality of La Pêche and the Provincial and Federal MNA and MP to please continue your means of pressure campaign to receive the necessary funding so that the municipalities deprived of certain luxuries like cell phones could also in the near future benefit from their advantages.”

Mining Activity Update

As mentioned in the article in the Spring 2019 Bulletin, an MRC in accordance with the Quebec Mining Act may declare a portion(s) of its territory incompatible with mining activity (territoire incompatible avec l'activité minière (TIAM). In March 2018 MRC des Collines (MRCCO) made such a declaration as indicated in the map which accompanies this article. The declaration is temporary and needs to be renewed every six months. It will also

need to be approved by the Québec Ministère des Affaires municipales et de l'Habitation (MAMH) and the Québec Ministère de l'Énergie et des Ressources naturelles (MERN).

Lac Sinclair shows up in the top corner on the left-hand side. There are brown (as reflected on the laptop used to prepare this article) markings around most of the shoreline which according to the legend indicates areas incompatible with mining activity by reason of them being residential sectors built outside urbanization boundaries. The grid markings indicate that there are active mining claims immediately southwest of the lake. This presumably means that mining activity could not take place on the residential properties themselves (unless the TIAM were to be amended or revoked) but there could be such activity in the areas immediately adjacent to those properties in and around les Petits Lacs.

According to information received from the Municipality of La Pêche on 16 October 2019: "MRCCO will continue to maintain TIAMs on a temporary basis (by a resolution every 6 months) until the territories can formally be integrated into our land management plan, which should be done in the months following its adoption (we are still awaiting approval from MAMH)".

The above relates only to the portion of Lac Sinclair in the Municipality of La Pêche. For the portion in the Municipality of Low, the MRC de la Vallée advised us on 10 October 2019 that they had not yet published a TIAM but that we could look for it in early 2020.

Fishing Tournament

Sunday August 4, 2019 was another beautiful day and, despite a slow fishing season so far, the fish cooperated as well. Some were a bit smaller than in other years but they showed up in enough numbers – except for perch – that we could award our trophies. There were 19 boats, small and large, carrying 69 people – 56 adults and 13 children. Among the adults there were 22 guests (friends or non-immediate family). Their \$ 5 guest fee brought in \$110, which helped pay for tournament costs. We thank very much all those who participated and who brought along children, grandchildren and adult guests. The prizes donated by our sponsors were much appreciated by those accepting their fishing trophies

and by the winners of the various draws. All children received a gift. Please see below information about the trophy winners, our sponsors and others who deserve a special mention. See you again next year!

WINNERS: Congratulations to:

- Pike, adult: 1st Alex Gauthier (2 kgs); 2nd Kaitlyn Burnt; 3rd Andrew Roy
- SM Bass, adult: 1st Jonathan Harris; 2nd Kayla McLellan; 3rd Marc André Roussel
- Perch, child: 1st Anthony Gauthier; 2nd Isabelle Percival; 3rd n/a
- Rock Bass, child: 1st Olivia Robert; 2nd Isabelle Percival; 3rd Ethan Lylyk
- SM Bass, child: 1st Abbey Roy (biggest bass @ 1.53 kgs); 2nd Abygale Bernier; 3rd Kendrick Bernier

SPONSORS: Thanks to:

BMR Gauvreau (Masham); T'Ray (Masham); Petit Magasin (East Aldfield); Confiserie Wakefield; Beausoleil Home Hardware, Tigre Géant, (Wakefield); Laurentian Marina (Ottawa).

We take this opportunity to remember the late Yves Bertrand of Ace Hardware in Masham who sponsored us in previous years but was ill this summer and recently passed away.

Additional thanks to: participants who pre-registered by phone/email; Association board members (Jocelyne, David, Colin) who assisted with registration, weighing/release, and distribution of prizes; Tony Lafrance and family for letting us use their beach and dock; our trophy suppliers Globe Awards and Promotions in Ottawa for their usual attractive trophies.

Foot note: "For the first time in several years, Tony Lafrance was not on-shore helping with weighing. This year, he took his grandchildren fishing and some of them won trophies. Well done, Tony!"

Garbage Bylaws

This article aims to remind residents to respect the property of others with respect to garbage dumping. It is in all of our interests not to deposit waste on our neighbor's property, at an intersection or even in a field.

La Pêche and Low municipalities have different regulations regarding garbage collection.

From La Pêche Municipality web site:

“The Municipality of La Pêche reminds its citizens that by-laws [16-718](#) and [17-752](#) made mandatory the use of green wheeled bins of 240 or 360 liters for domestic garbage collection starting June 1st, 2017. Please note that failure to comply with these by-laws will result in domestic waste not being collected.” In other words, if your garbage is in a green/white bag, it will not be picked up. However, this municipality provides 3 collections every year for all types of waste such as electronics, appliances, metal, and hazardous waste (HHW) such as tires, paint cans etc. Normally these collections are done during a specific week in May, July and September.

“The Municipality wishes to encourage residents to compost by offering a 280-litre ECO composter, a 7-litre kitchen bin, a compost aerator, and a starter pack of 10 biodegradable bags for just \$20.” To sign up for the composting program, fill out the registration form on their website (<http://villelapeche.qc.ca/en/municipal-services/publicworks/composting/>) and bring it to the municipal office (1 route Principale Ouest) with your \$20 contribution, or call them at 819 456-2161, extension 2221 or e-mail them at reception@villelapeche.qc.ca.”

Please refer to their website <http://villelapeche.qc.ca/en/municipal-services/publicworks/waste-recycling/> for more information including the annual calendar for garbage collection.

From Low Municipality website:

The municipality of Low only has regular waste garbage collection; they do not collect waste such as electronics, appliances, metal, and hazardous waste (HHW) such as tires,

paint cans. As mentioned on their website: "Waste storage site at 713 McDonald Road is open every Saturday from 9 am to 4 pm. Only small quantities of construction materials, tires with no rims, and empty propane tanks are accepted. A fee of \$30 to \$60 applies to construction materials".

They do recycle paint, oil, batteries and electronics; however, they must be brought to 27, Pagan Road in Low from Monday to Friday between 8 a.m. and 3 p.m.:
Paint, used motor oil in their containers and filters, Batteries: AA, AAA, C, D, 6 and 9 volt and rechargeable ones, Electronic devices: computers, laptops, TV, cell phones, old stereos etc...

Unfortunately, I could not find any information regarding composting in Low.

Please refer to their website

http://www.lowquebec.ca/pages_en/waste_and_recycling.php for more information including their annual calendar for garbage collection.

Cottage Rentals

The municipality of Low has a regulation that cottagers in the Low sector of our lake are prohibited from renting their cottages because of the current zoning of the area. This zoning permits a single dwelling on each property to be used by the cottage owner only and further declares that cottages in the Low sector of our lake cannot be rented out under any circumstances. For more information, please contact the inspector of the municipality at inspecteur@lowquebec.ca.

La Pêche proceeds differently. So long as you have the provincial license and are not within 150 meters of another cottager with such license, they will allow short term rentals. There are a few other terms i.e. no motor boats to be part of the rental or brought by the renter, no fireworks and no fire is permitted when winds exceed fifteen (15) km / h. Please refer to the Municipality's website: villelapeche.qc.ca/downloads/Urbanisme/2019-07-03-19-787-modification-zoning-by-law-short-term-rental-en.pdf.

Annual General Meeting Minutes and Budget Report

Lac Sinclair Annual General Meeting
Saturday, July 6, 2019 at 10 a.m.
Ste-Sophie d'Aldfield Community Centre

1. Opening of the Meeting and Establishment of Quorum.
30 members were present, including members of the Executive (Jocelyne Alain, David Hallman, Colin Chesterman, Mark Farrell, Megan Farrell and Luc Vézina). Maurice Legros was absent.

The President thanked the members present and declared that quorum had been met.

2. Adoption of the Agenda
Moved by Lina Rivard that the proposed agenda be approved. Seconded by Valerie Nabb. Carried.

3. Adoption of the 7 July 2018 AGM minutes.
Moved by Valerie Nabb that the minutes be approved. Seconded by Gerry Chartrand. Carried

4. Adoption of the 2018 Financial Report
Colin Chesterman presented and explained the 2018 Financial Statements (verified by Roger Smith). Roger Smith agreed to continue as financial verifier.

Moved by Gary Hannah that the financial report be approved and that Roger Smith continue as financial verifier. Seconded by Daniel Sterlini. Carried.

5. The President, Jocelyne Alain, presented her report:

President's Report – AGM July 6, 2019

I am now in my second year as president and I must say that I enjoy it still very much. I have had the pleasure once again of meeting many residents of lac Sinclair and high-profile people such as our Pontiac MP, Will Amos, Quebec MNA Robert Bussière and I have a great relationship with the Mayor of La Pêche, Guillaume Lamoureux who will be present at this AGM.

- We held 2 executive committee meetings: one on October 27, 2018 and one on May 11, 2019.
- We published 2 newsletters: Fall 2018 newsletter published at the beginning of December and the Spring 2019 newsletter published mid-june.
- Two of my colleagues, David Hallman and Maurice Legros attended the AGM of the Regroupement pour la protection de l'eau de la Vallée de la Gatineau on Saturday April 27 in Bois-Franc. The "RPEVG" Board is dedicated to protecting our waterways. Again, the main topic of discussion was the invasive aquatic species thus the importance of washing all watercrafts and of using phosphate free products.
- Once again, time was spent on maintaining an acceptable water level in the Creek for its dry hydrant and to prevent shoreline erosion in the lake; this in collaboration with the Municipality of Low.
- Unfortunately, we can no longer have Canada Day celebrations with fireworks since Insurance companies no longer insure this high-risk activity. We did however have a great fishing tournament last August; let's hope mother nature collaborates again this year.

- We collected information on water level measurements for clarity and supplied lake water samples to the government on three occasions last summer to be tested for phosphorous and chlorophyll levels. Mark will provide you with details on these items.
- My little side project this winter was cellular phones. I spoke with our MP Will Amos, and with both our mayors. This hot item is finally moving albeit not fast enough...

All of this information has been published in our Spring 2019 Newsletter.

Finally, I would like to mention that all of our work is entirely done on a voluntary basis; I want to thank them all very much for their continued work.

Thank you!

Jocelyne Alain, President

6. Information Section of the AGM

Jocelyne Alain introduced Guillaume Lamoureux, Mayor of La Pêche, who spoke about his desire to continue to provide modest support to lake associations and provided the following information:

- A study is under way on the question of whether and how private septic systems should be regulated. The municipality currently relies on voluntary compliance. The objective is to maintain and improve the water quality of the 135 lakes in the Municipality.
- A \$20,000 contract has been signed with ABV des 7 to review how the Municipalities of La Pêche and Low could share resources. The aim is to arrive at an agreed list of projects to be implemented each year.
- Mayor Lamoureux invited those present to review the new Strategic Plan to gain an understanding of how the Municipality is making changes to the way it conducts its business.
- Jocelyne Alain had earlier reported on a meeting she had organized of representatives of local lakes (Ricard, Teeples, Lola, Gauvreau and Bernard – in the end, the rep representing lake Gauvreau and Bernard had been unable to attend) to discuss common projects, problems and solutions. Mayor Lamoureux wanted to encourage this form of cooperation, including the formation of a Federation of Lake Associations to combat threats such as invasive species. He noted that Eurasian Milfoil was already present in Lakes Notre Dame, Gauvreau, Bernard and des Loups.
- In response to a question from David Hallman on whether Lac Sinclair had been declared part of a recreational or tourist area (villégiature) under the Québec Mining act, Mayor Lamoureux later provided a chart showing which part of the Municipality had been so designated.
- In response to a question from Daniel Hébert, Mayor Lamoureux confirmed that there were no plans to alter the number of electoral districts in the Municipality.

7. Active Association Files

- Jocelyne Alain provided information on the upcoming Fishing Tournament. Reminder: anyone catching a fish, even if it is subsequently released, must have a fishing permit. Many thanks to Tony Lafrance whose beach and dock will serve as registration and weighing points once again this year.

- Mark and Megan Farrell provided an update on the work the association is doing to test the water in Lac Sinclair for e. coli, and in cooperation with the Réseau de surveillance volontaire des lacs (RSVL), for Phosphorus, Chlorophyll, and clarity (using a Secchi Disk). As in past years, clarity is excellent and levels of e. coli, phosphorus, chlorophyll are low to virtually nil.
- David Hallman reported on his and Maurice Legros' attendance at the Regroupement pour la Protection de l'Eau de la Vallée de La Gatineau AGM in Bois Franc on 27 April 2019.
- Luc Vézina reported on efforts he was making to update and improve the website.

8. There being no other business, the Chair of the Nominating Committee, David Hallman, advised that all currently serving members of the Executive Committee had indicated that they were willing to serve for another year.

Our Secretary having resigned in June 2019, the Nominating Chair asked if anyone would be willing to volunteer for this position.

There being no response, he declared that the Members of the Executive Committee for 2019-2020 are the following:

Jocelyne Alain – President
 David Hallman – Past president
 Mark Farrell – Director, Environment and Vice President
 Colin Chesterman – Treasurer
 Megan Farrell – Director, Water Testing, Social & Special Events
 Maurice Legros, Director Advertising
 Luc Vézina – Director Website
 Secretary (Vacant)

Attendees thanked the members of the Executive Committee for all their hard work.

9. Adjournment

The meeting was adjourned at 11:45 a.m.

Minutes drafted by David Hallman
